PROFESSIONAL PROFILE

Full Stack Developer with proficiency in Java, Python, JavaScript, HTML/CSS, combining technical expertise with teaching, assertive communication, management, and organizational skills. I stand out for transforming complex concepts into clear explanations thanks to my experience training young people in programming. I aim to contribute innovative solutions with an analytical focus in tech teams, prioritizing the development of scalable, user-centered applications

HARD SKILLS

Java | Python | C++ | JavaScript | HTML5 | CSS3 | Bootstrap | Spring Boot | APIs REST | Git | GitHub | MySQL | Figma | Jira | Scrum

SOFTSKILLS

Effective Communication | Leadership | Problem Solving | Teamwork | Adaptability

ACADEMIC PROJECT

Interactive Personal CV – June 2025

- Designed and developed a responsive website with CSS animations and smooth navigation.
- Implemented interactive JavaScript features to enhance user experience.
- Successfully created a standout personal profile compared to traditional CVs.

WORK EXPERIENCE

E-commerce Platform – May 2025 to July 2025

- Developed a fully functional platform using Java for the backend and JavaScript with HTML5/CSS3 for the frontend, implementing secure REST APIs to ensure data protection and real-time dynamic functionality.
- Designed a responsive user interface with Bootstrap and UX/UI principles, using Figma for prototyping, improving user retention and enhancing mobile experience.
- Managed version control with Git/GitHub and applied Scrum methodology with Jira for efficient project management

Technology Instructor | Tecnolochicas – August 2023 to Present

- Delivered HTML/CSS classes, building interactive web projects in real-time using teaching methodologies adapted to beginner programmers.
- Led female digital inclusion initiatives, creating a safe and collaborative learning environment that empowered young women to enter the tech sector.
- Created interactive and multimedia learning materials with modern digital tools, simplifying complex programming concepts for easier understanding.
- Coordinated group web development workshops, fostering teamwork and peer-to-peer knowledge sharing among students.

COURSES

Google Cloud Computing Foundation **Google 2023**
Java Bedu **Junio 2025**

EDUCATION

- Full Stack Java Developer | Generation México – **2025**
- Bachelor's Degree in Information and Communication Technology | UNRC – **January 2023 to Present**
